Client: Pizutti Companies
Engineers Estimate: 323K

Bush Manor

Streetscape

Landscape Plan

Patio Presentation

Project Description:

Prescott Place is a high end single family cluster development that was centered upon the historic Bush family mansion. The mansion was converted to two separate units as the main focal point of the subdivision. James Burkart Associates was responsible for the landscape, patio layouts, and irrigation design.

I was responsible for the design of the landscape, irrigation, and the patio layouts. I was responsible for the inspections of the site. The project was completed in fall of 2007.
